# PROGRAMMER 101

What my friends think I do

What my mom thinks I do

What society thinks I do

What my boss thinks I do

What I think I do

What I actually do

# Which language will you use?

Perl is  
versatile...

...but quickly gets  
out of control.

C++ is fast  
and powerful...

...but ugly and  
unsafe.

Delphi is neat  
and well structured...

....but well past  
its sell-by date.

Anyone can  
write VB...

...do you really  
want them to?

C# is managed and  
modern...

...but comes at  
quite a price.

## Pick the right one for the job: java!

# Full Stack Developer

## LAMP STACK

# SDLC Stages and Documents

SPRINT3R

Siam Chamnankit Co., Ltd., Odd-e (Thailand) Co., Ltd. and Alliance

How the customer explained it

How the project leader understood it

How the analyst designed it

How the programmer wrote it

What the beta testers received

How the business consultant described it

How the project was documented

What operations installed

How the customer was billed

How it was supported

iSwing  
What marketing advertised

What the customer really needed
